oriented fibre sheets. Vertical Fibre Orientation (VFO) ensures extra cushioning effect and high durability in the mattresses.

Heal mattresses offer the right blend of enhanced sleeping comfort and proper back support. They are **hygienic, resilient, firm and durable**. The upholstery, made in computer controlled machines imported from U.K. and U.S.A., adds to the comfort and finish of Heal mattresses. Strict quality-controlled manufacturing ensures that every single mattress is flawlessly made. Heal mattresses are available in 3 inch and 4 inch thicknesses.

So if you wish to provide patients with only the best facilities, make sure your hospital has Heal mattresses. Because you know just how important a healthy sleep is. Especially to patients regaining their health in your hospital.
